I certify that I have reviewed the above credential exceptions and affirm that we have the proper documentation in our files to support the items identified as being "cleared by other methods" in order to meet the requirements to be a properly credentialed instructional and/or administrative employee according to Idaho standards.

I also recognize that there may be items remaining on this report that have yet to be cleared due to timing issues such as receiving official college transcripts and/or completing background checks which are currently in process at the Idaho State Department of Education. We will work with the department to see that these items are cleared. I understand all items on this list must be cleared on or before December 15th of the current year or state funding may be withheld from our Salary Based Apportionment and Benefit Apportionment payment.
